EDITORIAL

"My house", "my flat", "my home"... We have never had such high expectations for our homes. We have never been so demanding and we have never invested so much time and money in our homes. They reflect our values, they are the place where we can live our different lives, they witness our personal achievements, and they play an essential role in our well-being.

Our homes act as an extension of ourselves. Each and every one of us is unique, so why shouldn't our homes be unique just like us? That is why we have developed Home Design by Schmidt, so that you can break with convention and enjoy a truly personalised interior.

Whoever you are and whatever your interior, Schmidt can draw on its culture of excellence, its ability to inspire and its innovative streak to work alongside you in creating home interior spaces where every single millimetre is designed to meet all your needs and desires. Home interior spaces that are increasingly attractive, intuitive, and optimised. Living spaces that accompany our achievements and allow us to grow.

With Home Design by Schmidt, we transform our customers' homes into a true haven of well-being.

HOME **SCHMIDT** HOME

"For over 60 years, our Schmidt furniture has been manufactured in Alsace at the Schmidt Group factories. Schmidt Groupe is now B Corp™ certified. This certification measures a company's entire social and environmental impact. Guided by a mission, B Corp Certified® companies benefit all their stakeholders: employees, customers, the community and the environment. This recognition reflects our desire to be a positive driving force in the face of today's major challenges for the planet and its inhabitants.

Schmidt is proud to be a Schmidt Groupe brand and be part of this movement contributing to a more inclusive, equitable and regenerative economy!"

**ANNE
LEITZGEN**

The granddaughter of the brand's founder Hubert Schmidt is now the Group's CEO and continues to ensure that people form the backbone of the company's history.

Schmidt Groupe is part of a global movement aimed at building a more inclusive, equitable and regenerative economy.

Schmidt is a brand of Schmidt Groupe, a B Corp™-certified French manufacturer of home living solutions.

SUPPORTING YOU FOR MORE THAN 65 YEARS

As a family-run company, our top priority is making people the focus of our customer relationships and our actions, and especially valuing the men and women who make up our company.

THE ENVIRONMENT A SUSTAINABLE COMMITMENT

Preserving our ecosystem is not just an empowering cause, but a philosophy. Schmidt takes great pride in providing its customers with products that respect the environment and protect their health.

An enduring story

True to its roots, Schmidt has been established in the heart of France's Alsace region for more than three generations. Anne Leitzgen, granddaughter of the brand's founder Hubert Schmidt, is currently at the Group's helm and continues to perpetuate the brand's heritage and values.

Industrial excellence

Empowered by its unique French expertise, our Group is the epitome of industrial excellence. With six production sites in France and one in Germany, our Group boasts a manufacturing surface area of over 200,000 m² strategically located in the centre of Europe. Our next-generation factories stand on the cutting edge of technology and guarantee high-quality, sustainable and environmentally-friendly products.

Preserving wood, our raw material

All our panels are guaranteed to contain at least 70% recycled wood. We take the greatest of care to protect the vital resource underlying our business by prioritising PEFC-certified wood.

Origin, an innovation for the environment

To go even further with our determination to protect the environment, we have developed a collection made from panels composed of 100% recycled wood. In other words, we no longer use fresh sawn timber, but instead only use wood recycled from offcuts in landfills and waste skips, as well as old furniture.

Working closely with our partners

Schmidt has been awarded the Sustainable Supplier Relations & Procurement accolade after demonstrating its ability to build sustainable and balanced relationships with its suppliers. Working together as trusted partners, we go to great lengths to offer products and services of the highest quality.

Our commitment, your satisfaction

With over 900 showrooms and 1,800 employees across Europe, we strive to provide an exceptional, personalised service. Every day, our teams go the extra mile to meet your needs and expectations by offering products of the highest quality. Our close relationship and our fast response are the driving force behind our success and the keys to gaining our customers' trust.

Respect for the environment

Our products are certified to the NF Environnement standard, which means that their performance is recognised as satisfying the standard's quality, sustainability, health, safety and environmental impact criteria. List of certified products on the fcba.fr website.

Guaranteed quality

Our company is certified to ISO 9001, 14001, 45001 and 50001. Our certification in these four international standards guarantees that our units are manufactured to the highest standard in accordance with best practices.

THE FOUR CORNERSTONES OF SCHMIDT DESIGN

HERITAGE

Timeless expertise

Above all, Schmidt is a company with a wonderful family history that has endured for over 65 years. Based in the heart of France's Alsace region, the brand made its mark as early as 1959 when it began manufacturing Heidi sideboards, which illustrated its attention to detail when it came to home interiors. Ever since, Schmidt has combined its expertise in bespoke solutions with its capacity for innovation in all its business lines, offering its customers personalised support for all their projects.

AESTHETICS

The taste for detail

Because every detail counts, Schmidt designs units that are just as elegant inside as they are outside. With its extensive variety of colours and finishes, Schmidt offers unlimited possibilities for your projects. Boasting a wide range of materials for units and worktops, as well as a large selection of designer handles, we create stylish and functional spaces, so that your home will offer a sense of well-being, peace of mind and pride for many years to come.

FUNCTIONALITY

Everyday practicality

Over the years, homes have become smaller, so Schmidt is tearing up convention and the rule book by creating home interiors that are tailored to the available space. To optimise and produce truly unique home living solutions, we offer millimetre-perfect bespoke units featuring beautiful and ergonomic designs to ensure easier everyday use.

SUSTAINABILITY

The gold standard in quality

As part of its determination to champion sustainable and eco-friendly practices, Schmidt has a duty to provide its customers with quality products that protect their health. Our dedication to quality is evident through our rigorous testing in laboratories. The Origin collection features panels that are also crafted from 100% recycled wood, showcasing our commitment to sustainability. Our units are designed, developed and certified to stand the test of time and withstand the challenges of everyday life.

Christian Lacroix × SCHMIDT

MAISON

THREE AUDACIOUS DESIGNS

"For this third opus, our two French companies have combined their talents to create a new dreamlike design: Iris des Marais."

This design reflects the creative streak and freedom of Christian Lacroix Maison. Each of our designs is tailored to suit every room of the home in keeping with Schmidt Groupe's Home Design concept."

Sacha Walckhoff
CREATIVE DIRECTOR
CHRISTIAN LACROIX MAISON

ALGAE BLOOM

With a harmonious combination of precious minerals and marine flora, the "Algae Bloom" design celebrates the rich and flamboyant natural environment that Schmidt and Christian Lacroix Maison have always used for their inspiration.

PRÊTE-MOI TA PLUME

A graphical print featuring a swirling arrangement of multi-coloured feathers, the "Prête-moi ta Plume" design reflects the creative spirit and flamboyant world of Christian Lacroix Maison.

IRIS DES MARAIS

New for 2025

Drawing its inspiration from the origins of Christian Lacroix Maison, this new design conjures up images of the city of Arles and the beautiful irises that flower along the banks of the Rhône. This design captures their multi-coloured petals against a backdrop of shimmering colours.

IRIS DES MARAIS

BOOKCASE

Melamine-faced high density particle board units, available in 24 colours (Fox in the photo). Melamine-faced high density particle board fronts with a digitally printed finish (Iris des Marais in the photo).

SIDEBORD

COOKING

The kitchen is the home's beating heart, the place where family and friends can socialise and spend quality time together. Over the years, technological boundaries have been pushed ever further, family dynamics have changed, and new trends and styles have continually emerged, but the kitchen has always managed to transform and adapt. Once isolated, kitchens have now opened up to become an integral part of our living spaces. They encourage interaction and foster a sense of well-being. They are a place where precious memories are forged for many years to come.

PARIS

This collection clearly breaks with convention. Instead of the straight lines that usually dominate kitchen designs, Paris seduces with its curves and graphic elements, which round off edges to produce a softer overall feel. It tears up the rule book with its innovative design and the subtle detailing that highlights the space and adds a sense of rhythm to the rooms. It brings a harmonious contrast to the regular structure of the storage units, creating a unique, elegant and warm feel that conveys a sense of everyday easy living.

PARIS

LOFT MODEL

Melamine-faced high density particle board fronts with a water-based lacquered finish, available in 20 colours (Purple in the photo). Laminate worktop in Gold Marmor and Fox.

AN EYE FOR DETAIL

Rounded fronts that mirror the worktop.

Illuminate your glass cabinet in style.

A marble-effect worktop for an extra soft touch.

CARDIFF

SHAKER MODEL

Shaker-style kitchen featuring solid wood fronts, available in 10 elegant colors. Pictured here in a stunning combination of Cypress Blue for the island and Clay for the cabinetry, creating a timeless look.

AN EYE FOR DETAIL

A flawless blend of sophisticated design and eye-catching details, delivering both style and functionality for modern living.

The dramatic veined stone worktop beautifully contrasts the soft, neutral tones, adding depth and character to the kitchen.

Striking brass accents and handles bring a touch of luxury, standing out brilliantly against the light worktop and cabinetry. Perfect for a bold, yet refined finish.

R O M E

To bring structure to an open space or create a separate entrance in a living room, we have designed this double-sided wall unit. It creates a partition without enclosing the space, while offering a mix of open and close storage spaces. The full-height design accentuates the vertical lines of the bookcase and can even be fitted with a door for more privacy.

MILAN

ARCOS SWEET MODEL

Melamine-faced high density particle board fronts with a soft-touch ultra matt finish, available in 8 colours (Sirra Sweet in the photo). Compact laminate worktop in Nano Caneo and Nano Black Marmor.

OSLO

Featuring a blend of heritage and modernity, this collection heralds a return to the very origins of interior design. Drawing inspiration from its birthplace within the heart of Alsace's forests, Schmidt is reconnecting with the very essence of the furniture and the beginning of the company's history to create a collection that showcases its expertise in crafting a noble material, i.e. solid wood. This approach is essential for meeting the new expectations for sustainability and authenticity, as well as the challenges of embracing smart manufacturing practices. The simple beauty of the pure material is ideal for creating a contemporary, authentic kitchen.

AN EYE FOR DETAIL

Easy to open fixed profile for the handleless frame fronts.

A designer drawer with glass sides for storing your kitchenware.

Ultra-resistant recycled quartz worktop for easy cleaning.

COPENHAGEN

This kitchen takes pride of place in the middle of the home with an ideal island for cooking, eating, chatting, working and socialising. The workspaces are large enough to be shared by several people. The design plays with transparency and light, with a stylish, unpretentious and minimalist appearance. Glass units are extremely on-trend. They are more practical than shelves and represent an elegant way of tidying away objects and protecting them from dust without hiding them.

GETTING DRESSED

Organisation and aesthetics play a key role when designing our living spaces. Dressing rooms are so much more than a storage space. They embody the perfect combination of practicality and style, while offering a dedicated space for clothes and accessories. Draw inspiration from our innovative designs, quality materials and customisable layouts, which are designed to meet your specific needs.

V E N D Ô M E

A harmony of colours and a breath of fresh air...such are the ingredients for an elegant and unique ensuite that is all your own. Even the headboard brings functionality. The wall cabinets with their swing doors offer ample storage and extend all the way to the bathroom and its original wide passageway. The Peach and Alona Oak tones are a match made in heaven, meaning that the final result is both subtle and sophisticated.

VISUALISING

With a healthy dose of inspiration from our catalogue and website, allow us to guide you through your project every step of the way. The following pages should help you picture your project more clearly in your mind, while showing the different possibilities available. This is the first step before actually meeting our designers in the showroom. They will help you create a home interior that tells your life story and reflects your lifestyle.

PREPARE YOUR PROJECT

WITH YOUR DESIGNER, ZERO STRESS GUARANTEED

From idea to installation, from dream to reality, you can count on our support every step of the way. Whether in the showroom or from a distance, we will stay in touch throughout your project and even afterwards!

GET INSPIRED AND DESIGN YOUR PROJECT

Find and save your inspirations on the www.home-design-schmidt.uk

Try out your ideas with the kitchen and interior solutions **3D configurator**.

Create your **project space** and fill in the details. This means that your designer will be better prepared for your first meeting in the showroom.

ARRANGE AN APPOINTMENT IN THE SHOWROOM, OVER THE PHONE OR AT HOME

Are you looking for a **virtual appointment** with your showroom? Then ask for a telephone appointment.

Would you rather meet your designer in person and **discover the showroom**? Then make your request online, by phone or by email.

Would you rather not travel to the showroom? Then you can choose the option of an initial **home appointment**.

ENJOY A UNIQUE EXPERIENCE IN THE SHOWROOM

Your designer will tailor your project to your needs and present a **3D preview**.

Your designer will also give you a **personalised shopping list** with a selection of decorative objects from our online store to match your home interior.

VR headsets are available in many showrooms so that you can picture your future home interior in **virtual reality**.

YOUR PROJECT WITH COMPLETE PEACE OF MIND

Your designer will then come to **your home** to measure up for your bespoke project so that it fits perfectly with millimetre precision.

Find **all your documents** in your project space and follow the different steps in your project.

You will be notified of the delivery and installation dates by a Schmidt fitter.

Take delivery of your project.

Your designer will check everything and make sure that everything works.

LET'S CONTINUE THE STORY TOGETHER

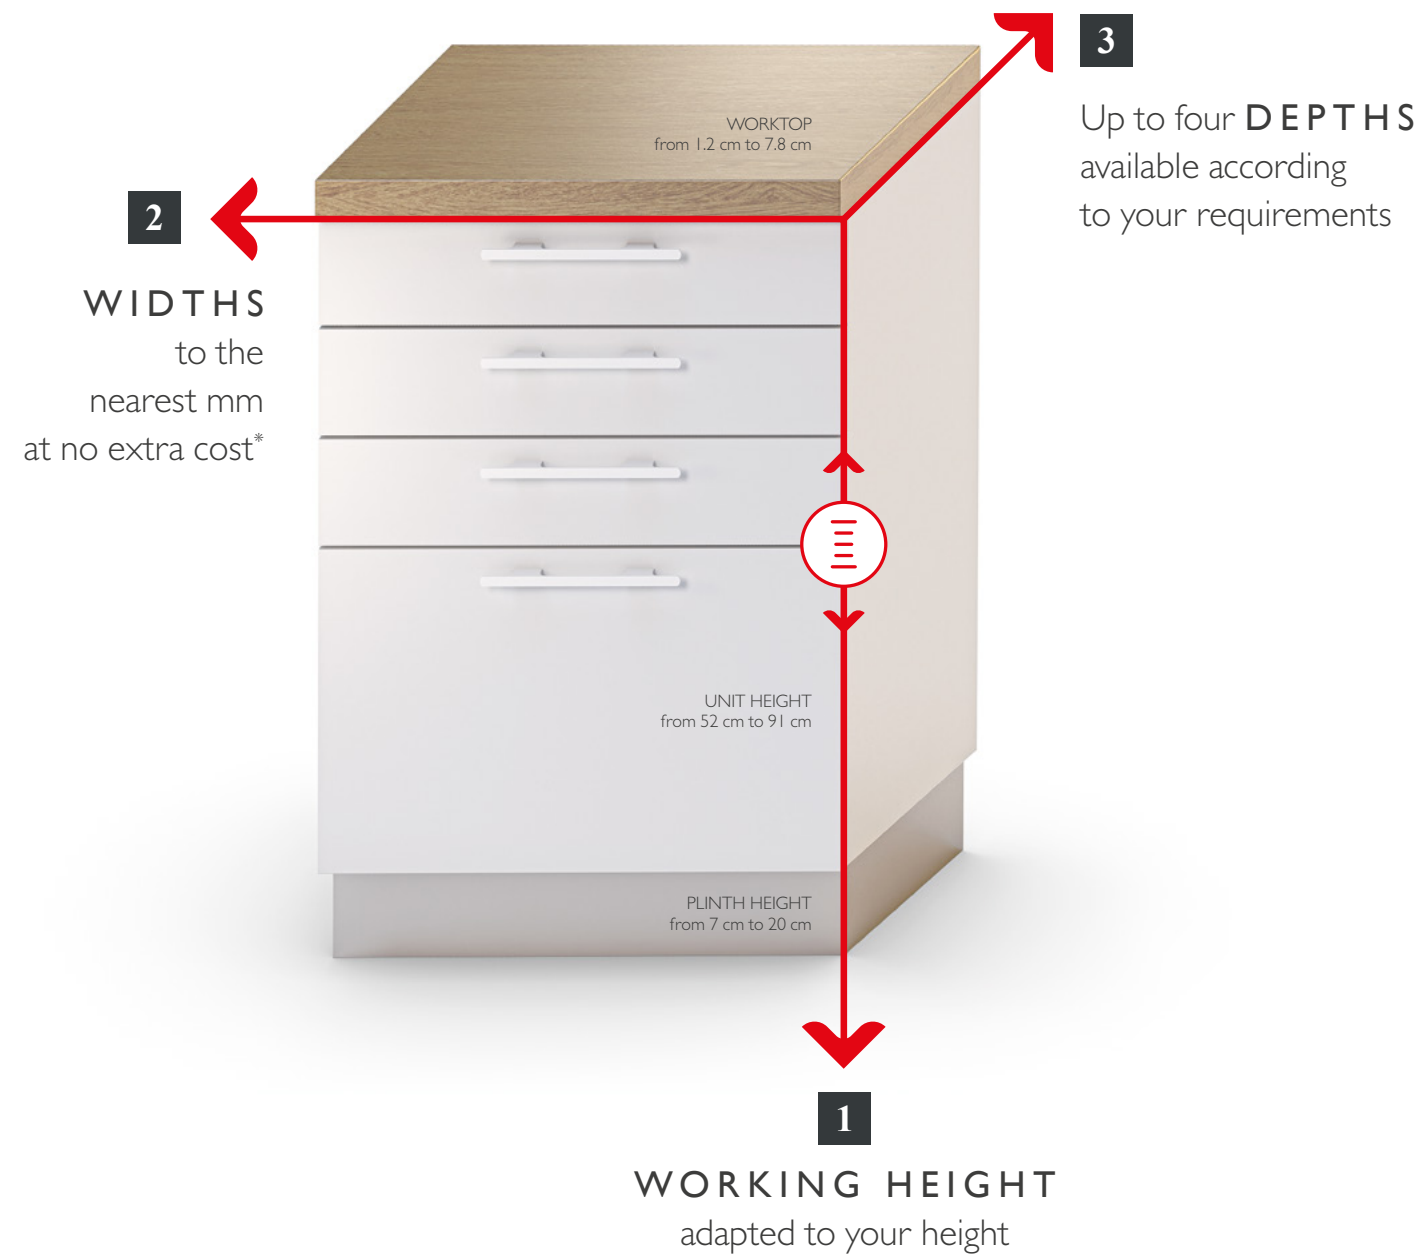

Refer your friends! Share your experience and we will give you a gift as soon as they finalise their projects (see terms and conditions in the showroom).

Post your most beautiful photos on social media with [@schmidt_unitedkingdom](https://www.instagram.com/schmidt_unitedkingdom)

Stay in touch and check out our new products and trends, and get inspired for a new project, in one of our showrooms or on our website.

BESPOKE WIDTHS, HEIGHTS AND DEPTHS

To make best use of the available space and produce a flawless finish, every millimetre counts. With **3D FIT**, Schmidt can adapt the three different dimensions of your units to conjure up even more storage space.

*Up to three bespoke units per kitchen at no extra cost, to be chosen from a collection of bespoke units (excluding the Sign and Twin finishes), from the Lagune, Crystal, framed MDF and wood ranges.

3D FIT AT NO EXTRA COST

With a depth of 62.5 cm, you can make the most of the deeper drawers for storing saucepans back to back, two stacks of plates one behind the other, and even oversize appliances.

FEEL FREE TO ASK FOR ADVICE

from the designers in your local showroom. They will suggest units in made-to-measure dimensions that are tailored to both you and your family.

THE **key**. COLLECTION

A collection of units featuring identical Schmidt quality for kitchens available from **£8,000*** incl. appliances, VAT, fitting and delivery. Factory assembled kitchen units.

32 COLOURS LAMINATE WORKTOPS

BRING COLOUR TO YOUR CARCASSES

At Schmidt, we push personalisation to its limits: choose from our 24 colours for your unit sides and interiors.

MAKE A LASTING IMPRESSION

Whether graphic, floral, material effects or exclusive designs, check out our new collection of 28 exclusive printed finishes for creating a truly one-of-a-kind interior.

Personalisation is consistently ranked high on the customer's list of expectations. Schmidt, France's leading manufacturer, firmly believes in the importance of meeting this need. That is why we offer 28 exclusive printed finishes to allow everyone to express their style, whether in small touches or covering the entire room, to bring a truly personalised look to their home interior.

STRICT ENVIRONMENTAL CERTIFICATION

Your fronts are designed and printed directly in our factories in Alsace, where they are continuously checked to ensure the highest quality. The inks used do not contain any VOCs (volatile organic compounds). Our inks are GREENGUARD Gold certified and meet strict criteria aimed at reducing indoor air pollution and the risk of exposure to chemicals, while helping create healthier indoor environments.

PRINT YOUR STYLE

While some may use prints for a light touch, others are experts at harnessing bold designs to create unique home interiors. With its wide range of applications, Schmidt has the design for you, whatever your personality.

THE DISCREET

Choose the print for a subtle touch.

THE ORIGINAL

Choose the print for a decorative touch.

A COMMITTED PARTNERSHIP

B Corp Certified and the world's first Climate Positive Paint Company, COAT is all about simplicity, timelessness, and making it easy for people to create a tasteful home in a climate-conscious way.

COAT's water-based, low VOC, premium paints are available to order online and formulated to be amongst the highest-quality on the market. With a reputation of unrivalled application and coverage, the range consists of 90, carefully considered shades, available in x6 finishes - Flat Matt, Eggshell, Soft Sheen, Claypaint, Exterior Eggshell and Floor Paint.

With a cult following of climate-conscious interior designers, contractors and luxury DIYers, COAT has been leading the way for sustainable interiors since launching in 2020. Founders Rob Abrahams and Rob Green have been purposeful with every decision since launching the business, going far beyond the expected minimum for the paint industry.

CHECK OUT COAT'S SUSTAINABLE PRINCIPLES

TREAT YOURSELF SCHMIDT QUALITY

Some facts are essential when it comes to explaining the quality of our products. Whether kitchens, interior solutions or bathrooms, our units are designed to withstand the challenges of everyday life.

WORKTOP

Your water-repellent laminate worktop is immune to splashes.

19 MM PANELS

Our panels are capable of withstanding everyday loads.

PLINTHS

The plinth is protected with a watertight seal.

HINGES

Say goodbye to slamming doors with our built-in soft-close buffers.

REAR MOUNTING SYSTEM

Our wall units can support up to 160 kg with the rear mounting system.

HANDLES

The coating on our handles ensures resistance to wear and tear.

EDGINGS

The 1.4 mm thick edging protects your units against everyday impacts.

LEGS

Each leg can support a weight of up to 200 kg.
